

Occupational Health, Safety and Environment (HSE) Policy

SCC-HSE-POL-0001-EK-1

October 2024

SOCAR Türkiye is committed to a culture of adopting industry HSE best practices which is foundational in achieving occupational health, safety and environmental excellence while adopting an approach of conducting **safe, efficient and sustainable** operations in compliance with regulatory and other applicable requirements.

Elchin Ibadov
CEO
SOCAR Türkiye

OCCUPATIONAL HEALTH The well-being of our workforce and communities is vital to our success.

OCCUPATIONAL SAFETY We value safety as a license to operate. Do it safely or don't do it!

ENVIRONMENT We are trusted stewards of our natural resources. We lead the way to deliver a healthy environment for today and tomorrow.

KEY BELIEFS

SOCAR TÜRKİYE BELIEVES:
All accidents can be prevented.

To work here you must be committed to working safely.

HSE compliant and responsible operations are essential to our success.

We always consider people aspects in all decisions and adopt people-centered strategies to drive excellence.

Every single employee and contractor is accountable for their HSE performance regardless of status and rank.

We deliver on our commitments.

- Compliance with our HSE Management System (SAFE) and HSE Golden Rules,
- Adherence to regulatory and other applicable requirements,
- Striving for continuous improvement and commitment to this policy enable HSE excellence.
